PORTFOLIO STATISTICS

The graphs below provide snapshots of the City's total investment portfolio as of April 30, 2009. The total portfolio size was \$1,170,637,243. The first graph below shows the portfolio composition by investment type.

The graph below shows the portfolio's cash balances by fund type.

The graph below illustrates the monthly ending cash and investment balances of selected City funds as reported by the City’s Financial Management System (FMS).

Monthly Comparison of Balances by Fund Type
From April 2007 through April 2009

Negative Cash Balances

The Capital Projects fund balance rose above zero this month. Negative balances are caused by a time lag between when payments are made through the investment pool, and receipt of funds for the related reimbursement for these capital costs from trustees. Finance staff has been working with departments to shorten the time lag between capital project expenditures processed through the pooled investment portfolio by capital project managers and reimbursement requests.

The graph above reflects the progress as of April 30, 2009 of mitigating the impact to the investment pool through the reduction of the timing and amount of outstanding reimbursement due from bond funds.

FEDERAL OPEN MARKET COMMITTEE (FOMC) ACTIONS

The Federal Open Market Committee (FOMC) had one regularly scheduled meeting during the month of April. The culmination of the Federal Reserves policy meeting was to maintain the Federal Funds target range unchanged between 0.00% (zero percent) and 0.25%. The statement released from the April 29, 2009 FOMC meeting suggested that the US economy had improved “modestly since the March meeting”. In addition, the FOMC diverged from their March statement by noting “the economy has continued to contract, though the pace of contraction appears to be somewhat slower. Household spending has shown signs of stabilizing”. For the month of April

short-term treasury yields remained near historic lows. However yields on longer dated Treasuries started to increase as market participants reacted to the potential of economic stabilization.

INVESTMENT STRATEGY

The City's investment strategy will continue to include a matching of maturities to cash flow by filling liquidity needs within the next twelve to eighteen months while looking for value in these areas and keeping within the guidelines of the City's investment policy. With interest rates continuing at historic lows, this strategy will allow for the portfolio to respond more quickly when interest rates begin to increase. The investment program maintains its focus on its core mandate of safety, liquidity, and lastly yield.

Investment Agreements with Citigroup

Treasury staff continues to carefully monitor the City's Investment Agreements with Citigroup for Phase 1 of the Airport Development Program. As of April 30, 2009, the aggregate balance of the agreements was \$381,266,146.30 and the outstanding balance of the agreements were collateralized by U.S. Treasury securities at 107% and Federal Agency securities at 108%. As noted in the staff report dated April 13, 2009, the collateral is held by the City's bond trustee with the City designated as the beneficiary. Citigroup's long-term ratings did not change during the month of April 2009 and remain A3/A/A+ from Moody's/S&P/Fitch, respectively. The Federal government released the results of its bank "Stress Test" on May 7, 2009. The Stress Test indicated that Citigroup needed to raise an additional \$5.5 billion of common equity in order to weather a more severe downturn in the economy. Citigroup has indicated that it intends to increase its common equity by expanding its preferred stock conversion program from \$52 billion to \$58 billion.

PORTFOLIO PERFORMANCE

Comparison of Portfolio Investment Earnings to FY 2008-09 Budget

The following is a comparison of actual investment earnings on an accrual basis to the fiscal year 2008-09 budget. The City's Adopted Budget for the General Fund's projected total investment income earnings was \$8.014 million for the current fiscal year. This estimate was reduced as a part of the 2007-2008 Annual Report actions by \$1.5 million to \$6.514 million, to reflect the lower interest earnings expected as a result of the retirement contributions prepayment. In addition, as discussed in the Bi-Monthly Financial Report for September/October 2008, the Finance Department has reduced its interest earnings rate projections for FY 2008-2009 from 3.41% to 3.22% due to general market trends. Based on lower interest earnings projections and reductions in cash balances in the portfolio, a Mid-Year Budget Review action was brought forward and approved by Council on February 10, 2009 to adjust the interest earnings projection for all funds.

Monthly budgeted earnings apportionments for the City funds are based upon historical cash balance averages and an assumed average interest rate yield for the fiscal year. The following schedule reflects the actual net investment earnings (unaudited) for the General Fund participating in Investment Portfolio Fund 1 as of April 30, 2009 compared to the modified budget, reflecting the revised interest earnings projection approved by the Council on February 10, 2009.

The Redevelopment Agency projects investment earnings on a quarterly basis, therefore budgeted versus actual investment earnings will be provided in the quarterly report.

(a) Reflects net investment yield which is calculated based on the earned interest yield less costs to administer the investment program and adjustment for funds with negative cash balances at month end.
 (b) Reflects the modified budget as approved by the Council on February 10, 2009.

Yield and Maturity Trend

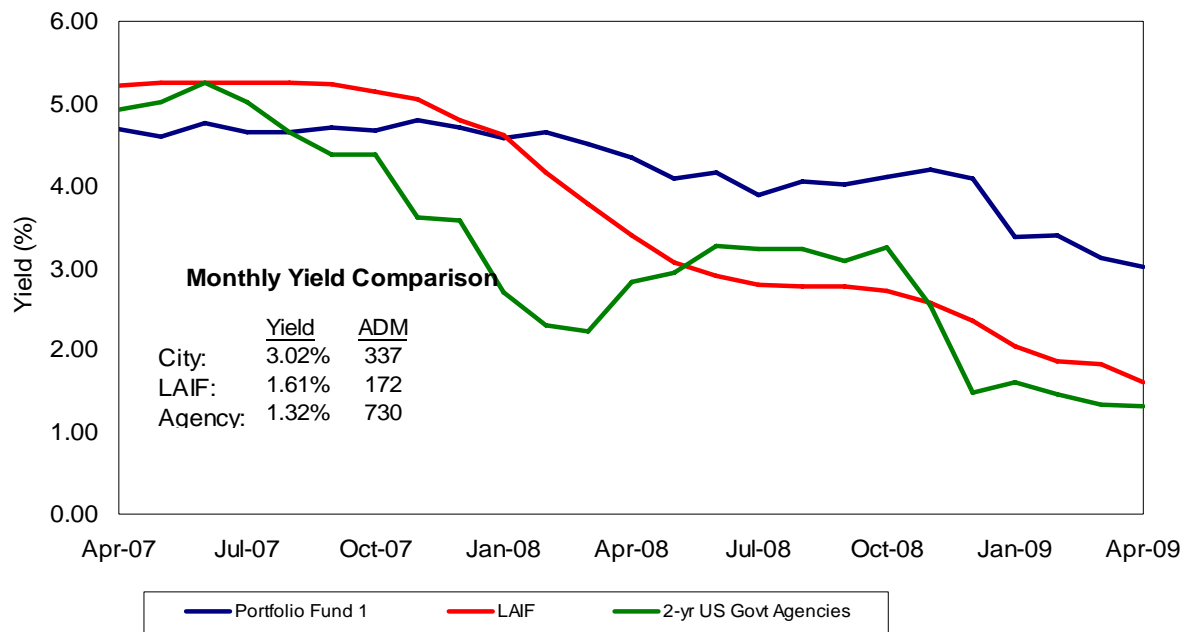

The following graph provides the historical monthly weighted average days to maturity of the portfolio for each month for the past two years (bar graph) along with the yield trend in Portfolio 1 (line graph).

Benchmark Comparison

The following graph compares the earned interest yield of the City’s Portfolio Fund 1 with the monthly average yields for the same period of the State of California Local Agency Investment Fund (LAIF) and of the two-year U.S. Government Agency securities from April 2007 through April 2009. The City’s Total Portfolio is not used for benchmarking comparisons since it includes various funds, which are required to be invested apart from the pool and have their own separate cash flow needs.

**Portfolio Fund 1
 Monthly Benchmark Comparisons
 From April 2007 through April, 2009**

The two-year US Government Agency securities and the Local Agency Investment Fund (LAIF) yield are the closest suitable benchmarks for the City’s Portfolio Fund 1 since the weighted Average Days to Maturity (ADM) for the portfolio is between the two benchmarks at 337 days. The yield on LAIF decreased and the yield on the two-year agencies decreased during the month of April. Both benchmarks remained below the City’s portfolio yield which also decreased to 3.02%.

During the month of April 2009, LAIF’s average days-to-maturity (ADM) was 172 days versus the City’s Portfolio Fund 1’s 337 days. Since the shorter end of the yield curve produces lower interest rates, LAIF’s shorter average life will continue to cause their yield to decline more rapidly. However, LAIF and their yield performance will be able to react more quickly when interest rates begin to rise. With the shift in the City’s investment strategy to invest in securities with maturities eighteen months or less (due to cash flow needs), the portfolio will experience a decline in ADM. This strategy will allow the City to react more quickly when interest rates increase, as cash flows permit, resulting in more favorable yield performance.
